-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Election/Restrictions

1. Applicant's election without traverse of Species I in the reply filed on June 27, 2005 is acknowledged.
2. Applicant has indicated that the claims associated with the elected species are 1-3 and 10. Claims 4-9 and 11-14 are withdrawn from consideration. Claim 10 recites the carrier bottom wall as having tubular parts with shaping wires inserted therein, and this feature does not appear to be associated with the elected species (figures 1-4). As such, claim 10 is additionally withdrawn from consideration as being directed to material not within the elected species.

An office action on claims 1-3 follows.

Drawings

3. Figures 14-16 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

4. The disclosure is objected to because of the following informality - on page 9, line 35, it appears that "strikes" should be - -strike- -.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(cont'd, over)

Art Unit: 3618

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Kassai (US 4,317,581, cited by applicant). Kassai teaches a stroller having a body with a pair of front legs (3) a pair of rear legs (4) right and left connecting bars (18) connecting the front and rear legs, and forming a seat support; a handle (12) connected to the rear legs (at 14, 15), a carrier basket (206) made from a pliable material (cited as being a fabric, and thus inherently understood to be sewn), supported by L-shaped basket holding rods (204) connected to the right and left connecting bars (through 14, 15), so as to extend rearward (figure 1); the bent ends being spaced apart and facing each other with the upper rearmost portion of the basket connecting there-between, wherein an upper part of the rear of the carrying basket is connected to the holding rods, the right and left basket holding rods being pivotally connected (at 205) to lower parts of the handle (through 14, 15).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Schenkman (US 3,100,652), Woods (US 4,132,429), Kassai (US 4,272,100), Witherell (US 4,369,987), Harvey (US 4,618,184), Meyer (US 4,684,149), Bell (US 4,765,644), Liu (US 5,197,753), and Japanese Patent Document JP 56-25980 teach stroller devices of pertinence.
